ABOUT US

Empowering blockchain developers everywhere

Alchemy provides the leading blockchain development platform powering millions of users in 197 countries worldwide. Our mission is to provide developers with the fundamental building blocks they need to create the future of technology.

Alchemy is a leading blockchain development platform that provides developers with the tools and infrastructure necessary to build scalable and reliable decentralized applications (dApps) without managing blockchain infrastructure in-house.

Founded in 2017 by Nikil Viswanathan and Joe Lau, Alchemy has grown to support millions of users across 197 countries.

ABOUT US

Empowering blockchain developers everywhere

Cofounder and CEO

Nikil Viswanathan

Nikil Viswanathan is the cofounder and CEO of Alchemy, the world's leading blockchain developer platform. He was honored as Forbes 30 Under 30, received his BS & MS in Computer Science at Stanford, and formerly did product management at Google, Microsoft, and Facebook. A serial entrepreneur, he co-created the #1 social app in the world, Down To Lunch, which was featured in international media such as a New York Times business cover story. He's been featured in numerous global media outlets including the New York Times, Forbes, NBC, Business Insider, and TechCrunch.

Cofounder and CTO

Joe Lau

Joe is the cofounder and CTO of Alchemy. A serial entrepreneur, he cofounded the #1 social app in the world and has been featured in international media including a New York Times Business cover story, Forbes, Business Insider, and TechCrunch. He has been honored as Forbes 30 under 30, formerly did engineering at Pinterest, Google, and LinkedIn. Joe graduated with both an undergraduate and master's degree in computer science from Stanford University.

FOREX TRADING

Forex Trading (short for "foreign exchange trading") is the process of buying and selling currencies on the foreign exchange market. The Forex market is the largest and most liquid financial market in the world, with a daily trading volume of over \$6 trillion.

Key Features of Forex Trading:

- 1.Global Market:** The Forex market operates 24 hours a day, five days a week, across major financial centers in different time zones, such as London, New York, Tokyo, and Sydney.
- 2.Currency Pairs:** Forex trading involves currency pairs, such as EUR/USD (Euro/US Dollar) or GBP/JPY (British Pound/Japanese Yen). The first currency in the pair is the "base currency," and the second is the "quote currency."

2.Purpose of Trading:

Speculation: Traders buy and sell currencies to profit from price movements.

- 1. Hedging:** Businesses and investors use Forex to protect against unfavorable currency fluctuations.

3.Leverage: Forex brokers often offer leverage, allowing traders to control larger positions with a smaller amount of capital. While leverage can amplify profits, it also increases the risk of losses. market sentiment.

CRYPTO TRADING

Crypto trading is the act of buying, selling, and exchanging cryptocurrencies to profit from price fluctuations. Cryptocurrencies like Bitcoin (BTC), Ethereum (ETH), and Ripple (XRP) are traded on dedicated platforms called cryptocurrency exchanges. Unlike traditional financial markets, the cryptocurrency market operates 24/7 and is highly volatile, presenting both opportunities and risks for traders.

How Crypto Trading Works

1. Cryptocurrency Exchanges:

1. Platforms where cryptocurrencies are traded (e.g., Binance, Coinbase, Kraken).
2. Traders deposit funds and exchange one cryptocurrency for another or trade against fiat currencies (like USD or EUR).

2. Trading Pairs:

1. A trading pair consists of two currencies, such as **BTC/USDT** or **ETH/BTC**.
2. The first currency is the one being bought or sold, and the second is the currency used for pricing.

3. Market Orders and Limit Orders:

1. **Market Order:** A trade executed instantly at the current market price.
2. **Limit Order:** A trade executed only when the market price reaches a specified level.

ARBITRAGE

Arbitrage is a trading strategy that involves taking advantage of price differences for the same or similar financial instruments in different markets or forms. Traders aim to profit by buying low in one market and simultaneously selling high in another. The price discrepancies are often very small, so arbitrage typically requires large transaction volumes or the use of high-frequency trading systems to generate significant profits.

Types of Arbitrage

Here are some common forms of arbitrage:

1. Spatial Arbitrage

1. Exploits price differences of the same asset between two geographic locations or exchanges.

2. Triangular Arbitrage (Forex Arbitrage)

1. Common in the foreign exchange market, this involves trading three different currencies to exploit discrepancies in their exchange rates.

3. Crypto Arbitrage

1. Involves exploiting price differences for cryptocurrencies across various exchanges (e.g., Bitcoin might have different prices on Binance vs. Coinbase).
2. Works well due to the decentralized and fragmented nature of cryptocurrency markets.

STOCK MARKET

The stock market is a platform where individuals and institutions can buy, sell, and trade shares of publicly traded companies. It serves as a critical component of the global financial system, allowing businesses to raise capital for growth and providing investors with opportunities to build wealth.

Public Companies: Companies list their shares on a stock exchange through an Initial Public Offering (IPO). This process raises funds for the company by selling ownership stakes to investors.

Shares and Stock: A share represents a unit of ownership in a company.

When you own a share, you own a portion of that company and may be entitled to a share of its profits (dividends).

Stock Exchanges: Stock trading occurs on exchanges like the New York Stock Exchange (NYSE), NASDAQ, London Stock Exchange (LSE), or Tokyo Stock Exchange (TSE). Each exchange operates under specific rules and regulations to ensure transparency and fairness.

Our Mission

Alchemy Pay's mission is to make blockchain services and value accessible to everyone, regardless of whether they use fiat currency or cryptocurrency.

Alchemy's fundamental mission is centered on revolutionizing the blockchain infrastructure, providing developers with powerful and reliable tools to build and scale their decentralized applications.

Our Vision

Alchemy's vision is to create a unified payment system that integrates fiat and cryptocurrencies. This vision is intended to make financial services more accessible and transparent for everyone.

How Alchemy aims to achieve its vision

Alchemy Chain

A public blockchain that integrates fiat and cryptocurrencies. It's designed to be highly scalable and to support seamless integration of traditional payment functions with Web3-native protocols.

Alchemy Pay

A platform that allows merchants to accept both fiat and crypto payments. It aims to make decentralized finance (DeFi) services more accessible.

OPEN COMMUNICATION

Everyone has a gift and we encourage you to share yours. This is not a one-way relationship but a company that thrives from open, honest, consistent communication. When we miss the mark, do something amazing, or there is area for improvement, please use your voice to share openly and honestly in a safe and loving space.

PERSONAL GROWTH + EMPOWERMENT

We are committed to the growth of each individual on our team. We believe in your dreams, your desires, your hopes, and your ideas. This is a place that fosters you stepping up and stepping into your greatness. We encourage you to be great by taking ownership of your tasks, committing to them fully, seeing them through to completion, and then relishing in the confidence and joy that comes from doing just that.

FEATURE BENEFIT OF ALCHEMY

1

Low fees and fast transactions.

2

High security and privacy.

3

User-friendly interface and easy access.

4

Staking and governance rights.

5

Reward system and referral program.

6

Users can earn through trading.

INCOME OPPORTUNITY

- 1 Sponsor: 5%
- 2 ROI: 1%
- 3 Matching: 6% - 12%
- 4 Weekly Turbo Bonus: \$2 - \$1500
- 5 Rank Bonus: \$200 - \$100000
- 6 Monthly Rank Bonus: \$100 - \$20000
- 7 Reward: Apple Watch - Luxury Flat

REGISTRATION

- 1 Free Joining
- 2 Activation 100 USDT (Minimum)
- 3 Daily Trade Income: 1% (365 days)
- 4 Saturday, Sunday Weekly Holidays

Packages

1. Basic: \$100

2. Standard: \$200
